Skills & Certifications

Key Skills

UX

Wireframing, prototyping, user research, usability testing, accessibility, design reviews.

UI

Visual design, motion graphics, typography, color theory, responsive design.

Tools

Figma, Sketch, Adobe XD, Photoshop, Illustrator, Canva, Miro, MS Office.

AI Tools

ChatGPT, Gemini, Sora, Midjourney, Leonardo AI, Runway, Firefly.

Software Skills

Figma · Adobe XD · Photoshop · Illustrator

After Effects · Premiere Pro · Canva · ChatGPT

Creative tools for a connected design workflow.

Certifications

TECHNOCRAT21

Certificate of participation in the Post Graduate Code Guru JAVA Programming competition, MIT-WPU.

E-commerce Research

Certificate for presenting "Impact of Risk Factors in E-Commerce" at the national-level students research conference, MIT-WPU.

Infosys BPM Training

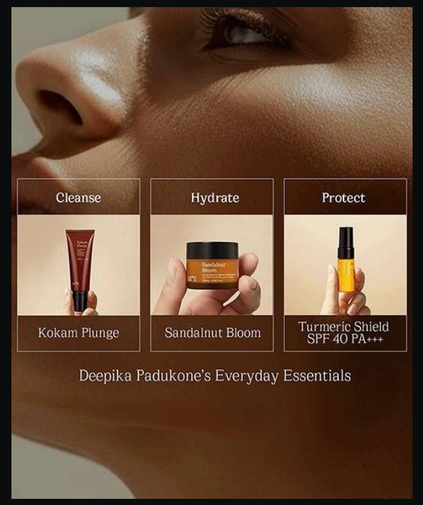

Certificate of participation in soft-skills training conducted by Infosys BPM Ltd. at Aishwarya College of Education, Jodhpur.

Individual team credentials: Bhavesh Rathi.

03 Problem Statement

The Financial Chaos Users Face Every Day

Managing money feels overwhelming when payments are scattered, statements are confusing, and there's no clear guidance. Users need a smarter, simpler way to **track, control, and improve** their finances.

01 Scattered Payment Activity

Users make many small UPI payments daily and lose track of where the money goes.

02 Limited Spending Visibility

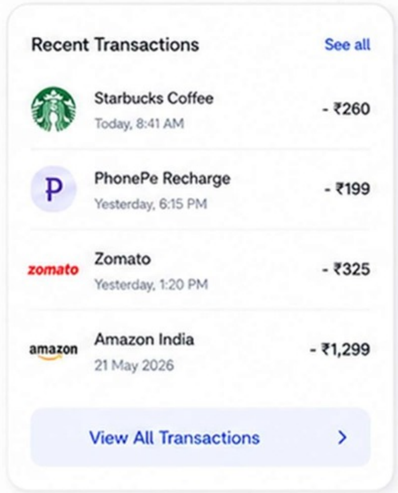

Bank statements are complex, hard to read, and not visual enough to understand.

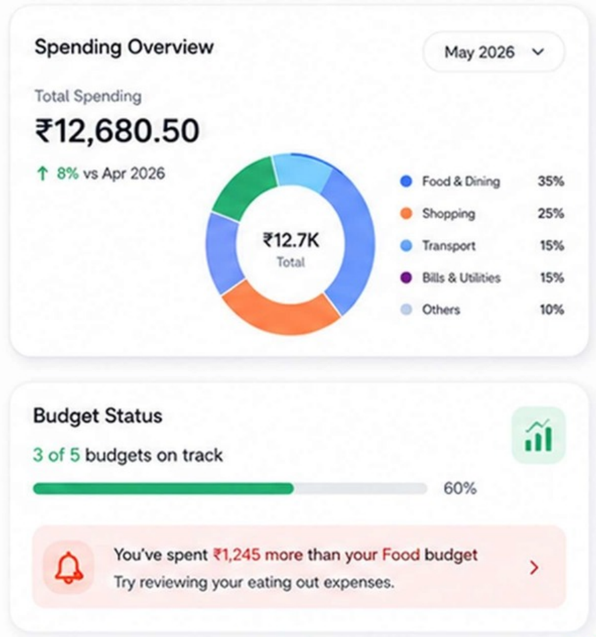

03 Weak Budget Control

Users often overspend without real-time alerts or budget tracking.

04 No Smart Guidance

Users don't know where to cut expenses or how to save more effectively.

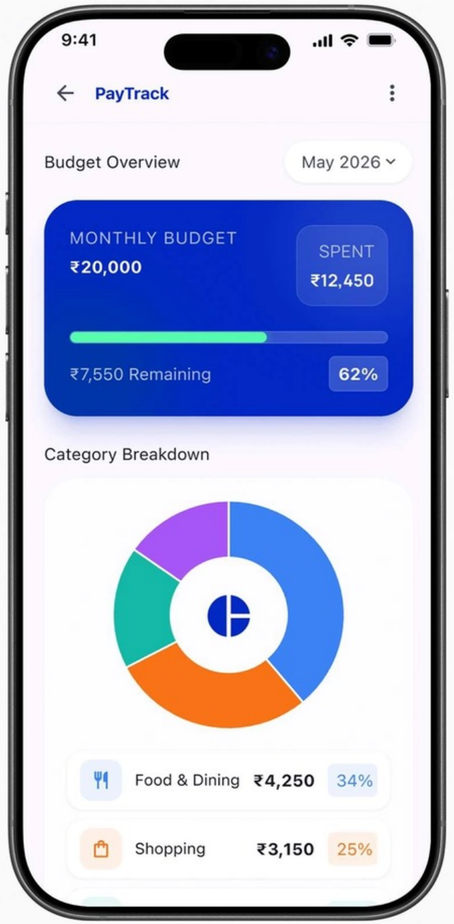

PIXEL GROWERS

Project Goal

PayTrack is designed to simplify digital payments and personal finance management. Our goal is to deliver a seamless, secure, and insightful experience that helps users pay, track, and save smarter.

- UPI Payments
- Expense Tracking
- Smart Insights
- Secure & Reliable

01 Make UPI payments fast and secure

Enable quick, seamless, and secure UPI transactions for everyday payments.

02 Help users track daily and monthly spending

Allow users to monitor their expenses in real-time and stay on top of their budget.

03 Show category-wise expenses clearly

Break down spending into categories for better visibility and control.

04 Provide AI-based saving suggestions

Use AI to analyze spending patterns and suggest smart ways to save more.

05 Build trust through simple and user-friendly design

Create a clean, intuitive, and reliable experience that users can trust and enjoy every day.

PIXEL GROWERS

05 Target Audience

Who is PayTrack for?

PayTrack is built for modern digital-first users who rely on UPI payments and want smarter control over their money.

Students

- Makes UPI payments for daily needs
- Tracks expenses & manages pocket money
- Looks for savings insights & budgeting

Young Professionals

- Uses UPI for work & personal payments
- Wants to track spending & set budgets
- Values quick insights & clean UI

Freelancers

- Receives payments via UPI
- Needs income & expense tracking
- Wants clarity on cash flow & taxes

Small Business Owners

- Accepts & makes UPI payments
- Wants to monitor cash flow & expenses
- Looks for simple reports & smart summaries

Age Group
18 – 40

Common Behavior

Daily UPI Users
Frequent digital transactions across categories

Wants Better Money Control
Seeks visibility, tracking & budgeting solutions

Prefers Simple Mobile Experience
Needs a clean, fast & easy-to-use app

PIXEL GROWERS

06 User Pain Points

User Pain Points

Through research and user feedback, we identified key challenges users face in managing their daily finances. Solving these became the foundation of the PayTrack experience.

01 Hard to track small UPI payments

Tiny payments get lost in the crowd, making it hard to remember where money goes.

02 No clear monthly spending view

Users struggle to see an overall picture of their monthly expenses.

03 Budgeting feels confusing

Setting budgets and sticking to them feels difficult and overwhelming.

04 Fear of sending money to the wrong receiver

Users worry about mistakes while sending money to unknown or saved contacts.

05 Subscription and recurring expenses go unnoticed

Auto-payments and subscriptions often go unnoticed and drain the budget.

06 Financial apps often feel too complex

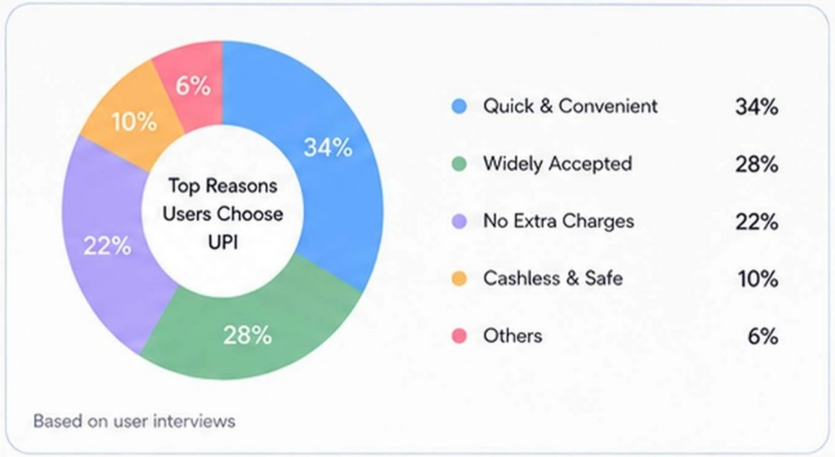

Cluttered interfaces and too many features make apps hard to use.

PIXEL GROWERS

07 Research Insights

What we discovered from users

We conducted user interviews and contextual observations with 15+ active UPI users to understand their payment behaviour, challenges, and expectations.

01

Users make multiple low-value UPI payments daily

"I don't think much before paying small amounts — it's just part of my daily routine."

87% users do 3+ UPI payments every day

02

Most users check balance only after spending

"I usually check my balance only when I'm not sure whether the payment went through."

68% users check balance after a transaction

03

Users prefer quick actions over deep menus

"I want to send money, scan, and pay — fast. I don't want to explore menus."

74% users prefer quick access on home screen

04

Visual spending summaries improve understanding

"When I see my spending in charts, I understand where my money goes."

81% users find visuals helpful for tracking

05

Smart recommendations increase motivation to save

"Suggestions and goals motivate me to save and spend better."

69% users value smart insights & suggestions

PIXEL GROWERS

08 User Persona

Aarav Mehta

"I want a smart way to manage my money, so I can save more and worry less."

Age
27

Occupation
Marketing Executive

Location
Jaipur, India

Lifestyle
Daily UPI user

Background

Aarav is a marketing executive who lives in Jaipur. He uses UPI for almost every payment—food, travel, shopping, subscriptions, and bills. He wants better control over his expenses and savings.

Goals

- Track monthly spending
- Save ₹5,000/month
- Make quick secure payments

Challenges

- Small expenses add up
- Forgets subscriptions
- Unclear spending breakdown

PIXEL GROWERS

Empathy Map

Understanding *Aarav Mehta*

An empathy map helps us understand Aarav's mindset, daily habits, motivations, and challenges as a frequent UPI user trying to manage his money better.

Says

- "I don't know where my money goes."
- "I want to save more, but it's hard to track."
- "UPI makes payments easy, but managing expenses is tough."

Thinks

- "Can I save more this month?"
- "Where can I reduce unnecessary spending?"
- "I wish I had a simple way to track everything in one place."

Does

- Checks bank balance after spending.
- Uses UPI for almost all transactions.
- Reviews expenses at the end of the month.

Feels

- Anxious about overspending.
- Motivated to save for big goals.
- Frustrated with juggling multiple apps.

PIXEL GROWERS

10 User Journey

User Journey

Mapping the user journey from awareness to better financial control with PayTrack.

1

Discovers need to manage spending

Realizes the need to track and control daily expenses.

Curious & Aware

2

Downloads and signs up

Installs the app and completes quick registration.

Motivated

3

Makes first UPI payment

Links bank and makes a secure UPI transaction.

Confident

4

Tracks transactions

Sees real-time updates and categorizes expenses.

Informed

5

Sets budget

Creates monthly budgets and spending limits.

In Control

6

Receives AI insights

Gets smart insights and personalized recommendations.

Impressed

7

Improves savings behavior

Adopts better habits and achieves financial goals.

Happy & Empowered

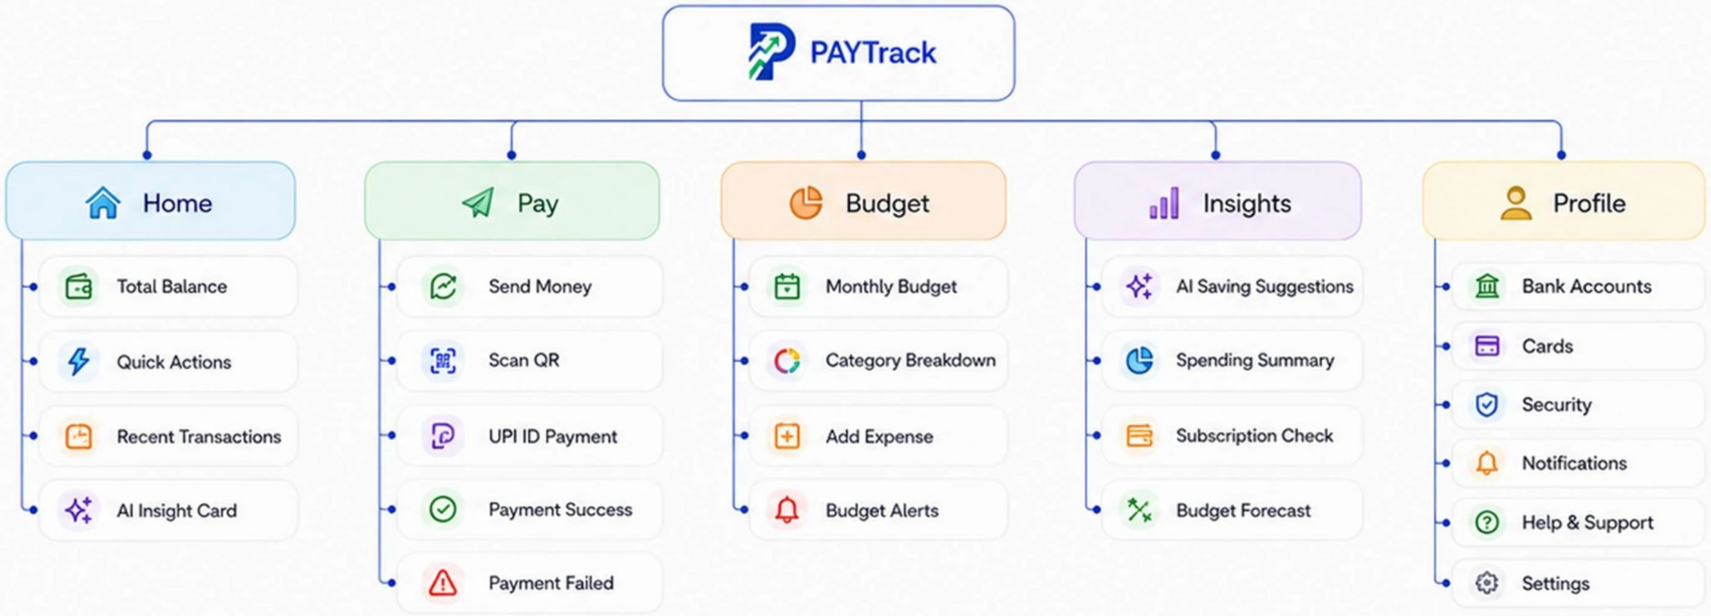

From awareness to action, PayTrack empowers users to take control of their money and build a better tomorrow.

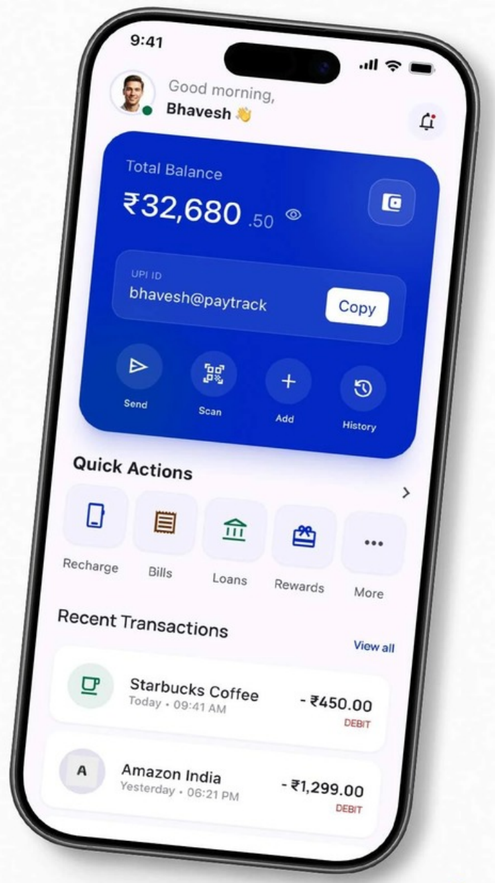

PIXEL GROWERS

11 Information Architecture

Information Architecture

PAYTrack is structured with a user-first architecture that simplifies money management. Each section is designed to be intuitive, interconnected, and easy to navigate—helping users **send, save**, and **grow smarter every day**.

PIXEL GROWERS

12 User Flows

User Flows

These user flows are designed to ensure a seamless, secure, and intuitive experience across core PayTrack features—helping users complete tasks **quickly and confidently**.

01 Onboarding Flow

Splash → Onboarding → Login → OTP Verification → App Lock → Home

02 Send Money Flow

Home → Send Money → Select Contact → Enter Amount → UPI PIN → Payment Success

03 Scan QR Flow

Home → Scan QR → Verify Receiver → Enter Amount → UPI PIN → Payment Success

04 Budget Setup Flow

Home → Budget → Set Limit → Category Allocation → Save Budget

05 AI Insight Flow

Home → AI Insight → View Recommendation → Apply Suggestion

PIXEL GROWERS

13 Wireframes

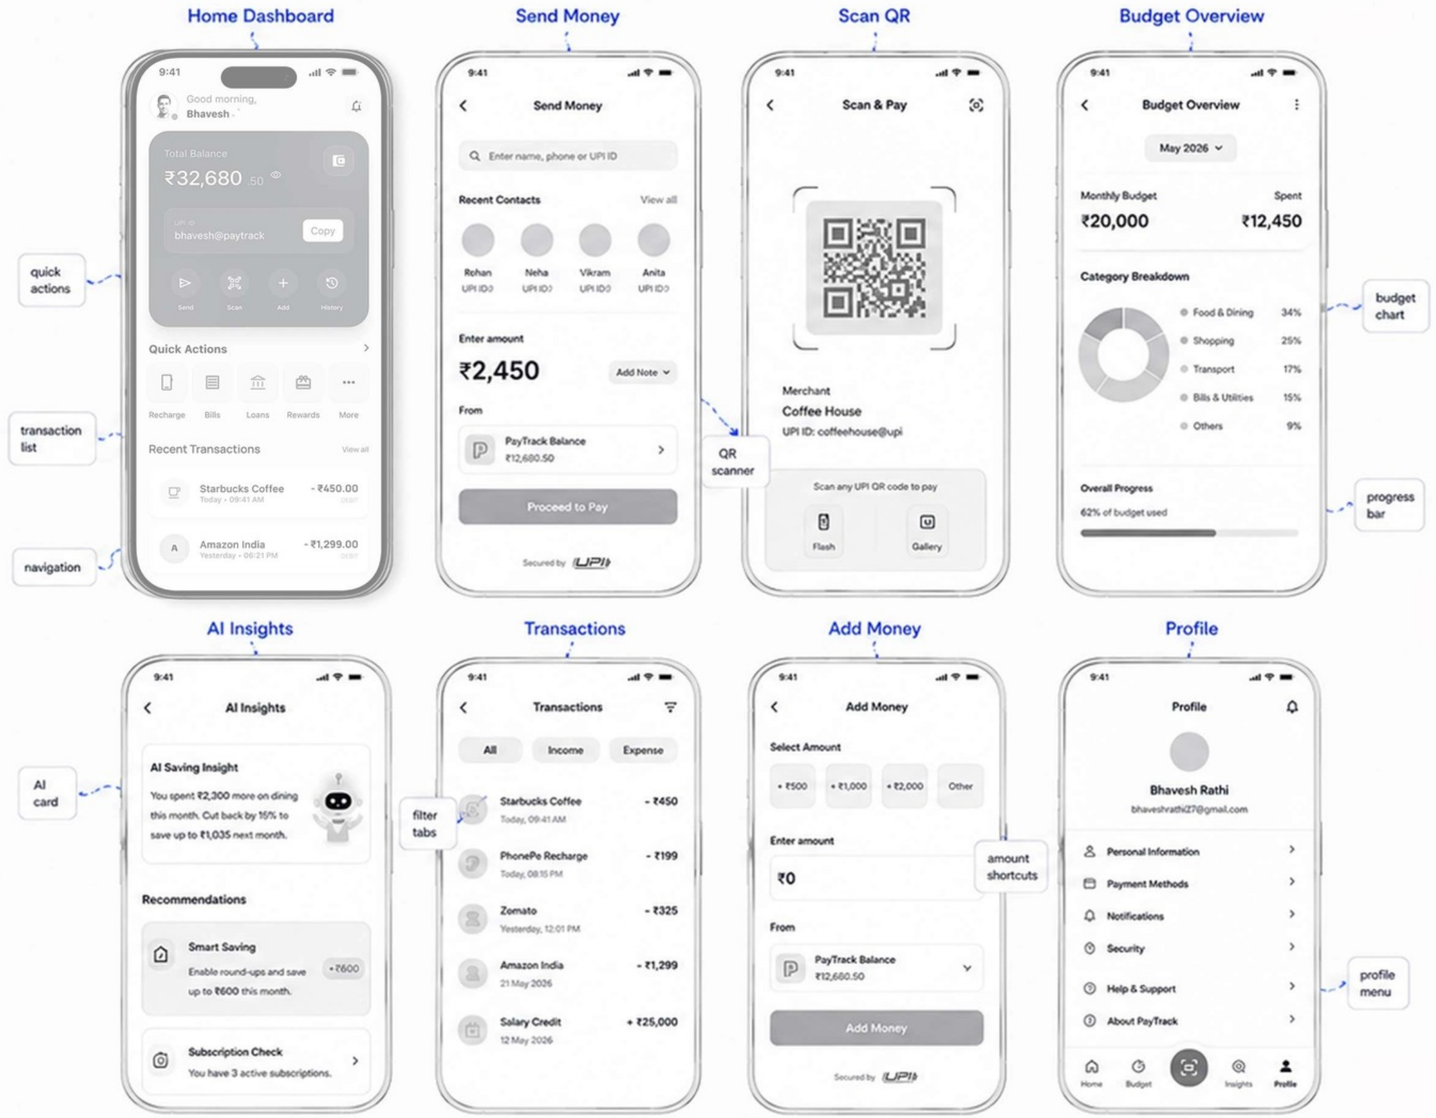

Wireframes

Low-Fidelity. High Clarity.

Low-fidelity wireframes helped us define the information hierarchy, user flow, and navigation structure ensuring a seamless experience before moving into visual design and high-fidelity UI.

- Clear Structure
- User Flow Focused
- Content Hierarchy
- Faster Iterations
- Usability First
- Design Ready

PIXEL GROWERS

14 Design System

PAYTrack

Track Smarter. Spend Better. Live Freely.

A unified design system built for clarity, trust, and consistency across every screen—empowering users to manage money with confidence.
